# We need important information

## Driving a vehicle is heavy stuff

But Drively membership requires only that we check your DMV record and your credit history.

### Here's what we need:

1. Capture image of your drivers license
2. DMV check
3. Credit report

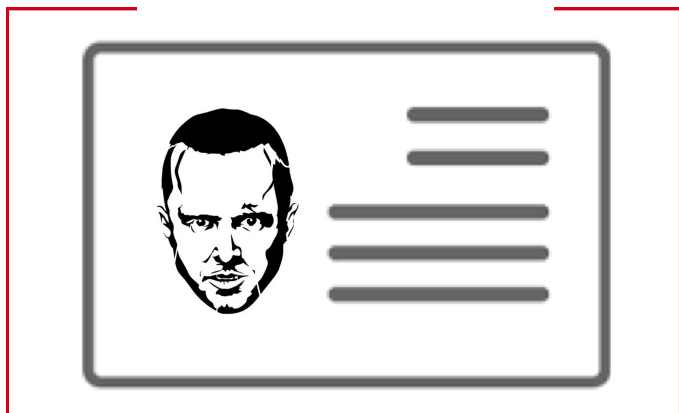

Let's proceed.

# Scan your valid drivers license

**Just fill the rectangle with the ID card**

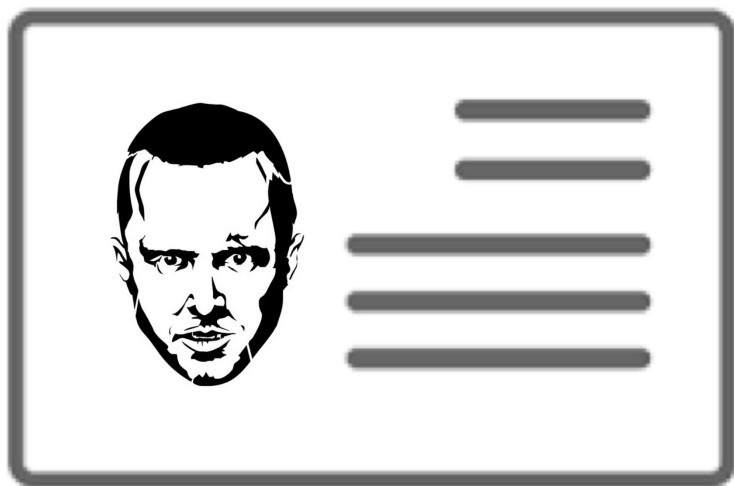

The rectangle will turn red when you have framed the license correctly. NOTE: turning the camera to the side will allow you to see the image better.

## Your drivers license info

**Hey, not bad. Really, we've seen worse.**

**Take it again** 

Fill in this simple form to allow us to check your driving record online.

**On to the Credit Report!** 

## Your credit report info

### Just to confirm your good credit

Birthdate

Social Security Number

What are Drively's standards for credit report?

I authorize Drively to initiate a check of both my driving record and credit history.

## How would you like to be notified?

Connecting with these legacy systems can take up to 6 minutes—sometimes longer if we have to make contact with actual people at the DMV.

You have some idea of what that's like.

## It's all quite simple

You're ready to move on. We get it.

We'll come and get your current ride and you can ride off in your new, better in every way, upgraded ride. It's not like your car has feelings. Or does she?

Just kidding. Sheesh. Enjoy!

Let's choose a date.
